Addendum 3:

#18C-13 CELLULAR SERVICES

- 1) This specific RFP does not include Netbooks, so not sure why 6.2.1 references netbook option? Would that be data connects (i.e. SIM cards) and or tablet devices as an option to use of netbook?
 - a. See addendum 1 item 7 table replacement.
- 2) Campus Name - Are the responses expected to include cost per campus? If so, the campus listing is given, but not the requested device or number of devices to summarize a cost per campus?
 - a. See addendum 1 item 7 table replacement.
- 3) 3.1.3.4. OPTION FOR Push to Talk Solution to replace existing Radios: The solution should provide a Push to Talk solution that could replace or augment the existing 450 school/facility radios. The solution should hardware including handset and microphones that provide the volume, access and functionality of a radio system. Please verify that this RFP is intended for Push to Talk only or would data plans be desired with the Push to Talk devices.
 - a. The basic response will include the cost of a PTT solution with associated hardware that would provide an option for consideration of the current radio usage and functionality that does not include a voice or data plan other than emergency 911. Response should include all of the features and functionality supported by the proposed PTT solution. A comprehensive response with options can include the cost to add PTT to an existing plan; handsets that support voice, data and PTT; and/or PTT plans with functionality such as GPS, data and voice usage.
